

HEALTH AND SAFETY POLICY

Liker Motors Kft. is engaged in the production and repair of electric machines, its goal is to provide a reliable, exceptionally high-quality service tailored to the needs of its customers.

The management of Liker Motors Kft. has committed itself to pay special attention to the creation of a non-threatening and safe working environment, occupational health protection, and safe working conditions for its employees and those performing activities under their supervision during the production and repair of electric machines in order to achieve its goals.

We operate in a way that allows us to create a healthy and safe environment based on a true occupational health and safety culture for all stakeholders - our employees, suppliers, communities and customers. Health and Safety at Work is our main core value.

We believe in visible leadership and personal responsibility in all areas of Health and Safety, throughout our organization. No job is worth getting hurt.

Our obligation:

- During our operation, our goal is to achieve complete accident-free operation.
- We ensure safe, healthy and undisturbed working conditions for employees and suppliers.
- We operate a Global Health and Safety Management System, which serves the continuous development of our performance and actively helps to minimize the risks of our business activities.
- We comply with applicable legal, regulatory, industrial and corporate requirements.
- We conduct an open dialogue with all relevant parties on relevant Health and Safety at Work issues.
- We empower all employees and suppliers to stop unsafe work.
